

J & H Diesel Service, Inc. has over 43 years of diesel fuel injection and turbocharger sales and service experience in the Greenville, MS Delta area. J & H Turbo Service, Inc. is our turbocharger division which is factory authorized for sales and service for Schwitzer/Borg Warner, Garrett, Holset, and Warner-Ishi.

Our re-manufacturing facility covers over 23,000 s.f. and can service mechanical as well as various later model electronic diesel fuel injection systems.

We offer a large variety of rebuilt diesel injection pumps, injectors, nozzles, and turbochargers, as well as glow plugs, vacuum pumps, turbo kits, fan drives, engine shutdown kits, and fuel conditioner. With a large inventory of exchange injection pumps, nozzles, and turbochargers, we can offer faster turn around service.

J & H Diesel is a factory authorized service dealer and can handle OEM warranty service. We carry the latest tools, parts, and equipment to service your diesel application needs. Our technicians are factory trained for service repair and calibration of diesel fuel injection systems.
